MUTAG reveals new corporate identity

Dear partners,

We are very proud to finally reveal what we have been working intensely on during the past months. Some details have already been leaked but NOW we are ready to make it all official:

We have been refreshing our brand and developed a NEW corporate identity for Mutag. The new look aligns with our strategy for the future and marks a new chapter in our company's history. Please welcome our new logo, look and recently launched website www.mutag.de.

We are looking forward to a successful future with our clients and our team.

Sustainable solutions

At Mutag we see ourselves as an important shareholder, taking responsibility for improving the water quality from a global perspective. With you as the customer in focus, we provide sustainable solutions that make an important difference for all of us, our globe and our future.

As a customer you can always trust our full support from the start of your project. We insist to guide, calculate and provide the most optimal and efficient solution for YOUR needs. After commissioning of your treatment plant, we follow up and make sure your installation works as expected.
